

OR TRU Baseline Disposition Map

PREDECISIONAL DRAFT

This map is conceptual and in many cases does not represent cleanup or transfer decisions; this map does not preclude the ongoing regulatory and stakeholder decision-making processes.

* Assumes one privatization contract and privatization dollars are made available by Congress. Secondary wastes generated are not DOE owned.

** Privatization contract set up to remove legacy waste by close of FY2006.

*** Generation ends in FY1999
